Table A-1. Galena Airport - Facility Matrix^(a)

Page 5 of 5

Facility ID (Building Name)	Year of Construction	Square Footage	ERP Site	Hazardous Material/Waste	Storage Tanks/OWSs/Septic Tanks			ACM ^(b)	LBP ^(b)	Comments	Property Category ^(a)
					Type	Content	Capacity (gallons)				
77506 (Deicing Storage)	1966	NA			AST (A) (1)	Deicing Fluid	50,000	N	Y		1
					AST (A) (1)	Deicing Fluid	50,000				

Notes: (a) Because the Air Force leases land at Galena Airport and owns the structures, for purposes of disposal activities, the property categorization of the physical structure has been separated from the condition of the land.

(b) Data are for disclosure purposes only and do not impact the property categorization.

Number in parentheses indicates property category for that resource (e.g., UST (R) (2) indicates at removed UST that is Category 2).

- A = active
- ACM = asbestos-containing material
- AST = aboveground storage tank
- DF-8 = diesel fuel, grade 8 aboveground storage tank
- DFA = diesel fuel arctic
- ERP = Environmental Restoration Program
- H = hazardous material
- I = inactive
- JP-8 = jet propulsion fuel, grade 8
- LBP = lead-based paint
- N = No ACM or lead-based paint, as appropriate, has been identified or is suspected within facility
- NA = not applicable
- OWS = oil/water separator
- R = removed
- U = unknown presence of ACM or lead-based paint, as appropriate, within facility
- UNK = unknown
- UST = underground storage tank
- VSI = visual site inspection
- W = hazardous waste
- Y = ACM or lead-based paint, as appropriate, has been identified or is suspected within facility
